

Product: DELSIL-ZX

Description: Fine Particle Amorphous Synthetic Sodium Alumino Silicate

Application: As Tio2 Extender for water base and Solvent based paints to improve Opacity, Whiteness, Weathering performance and strong stability of Paints.

Specification:

Sr.no	Physical Property	Unit	Specification
1	Appearance	-	Fine White Powder
2	Oil Absorption Value	ml/100g	100 min
3	Avg. Particle Size D50	µm	7.0 Max
4	Moisture Content (at 105°C)	%	6.0 Max
5	PH (5% water Suspension)	-	10-11.5
6	Ignition Loss at (105-1000 deg c)	%	14.0 max
7	BET surface area	M ² /g	40-60
8	Trapped Bulk Density	g/l	250±50
9	Residue on 325# Sieve (wet Residue)	%	0.1 Max

Packing & Logistic:
